

Camp letter 3

It's February and the spring term has started in scout groups around the country after the Christmas break.

Finally, camp letter 3 is here, containing information about registration, the trip to and from Kalmar, and more.

Application of interest

The interest in participating in Vasalägret has been very high and there was a total of 3389 interested scouts from 15 districts within the Scouts of Sweden, NSF, Salt Scout and Equmenia, and also 7 scout groups from Denmark, Great Britain and Belgium. See the list below for all the groups that have registered their interest.

Registration

The definitive registration for Vasalägret 2023 will be open in two rounds and will be done via scoutnet. International groups will register via Excel file.

The first round will be open between March 1:st and March 19:th, and during this period all scout groups belonging to the three organizing districts Norra Småland, Dacke and Nordöstra Götaland, as well as all international groups, will be able to register.

The second round will be open between March 22:nd and April 9:th, during which time all other scout groups will be able to register. First come, first served for the places left after the first round. The number of spots available in the second round will be communicated to the scout groups that have expressed an interest, and do not belong to the three organizing districts.

The reason for this decision is that the camp has received more expressions of interest than the camp premises can handle. The camp premises around Ljungnäs can take 2300 participants and this is the limit that applies at the moment.

Our camp team is working on finding additional areas. If more space becomes available, this will be communicated as soon as possible, and at the latest before registration opens. If there is no news before March 1:st, the limit above will apply.

Payment

Payment of participation fees will be made by invoice sent to the contact person indicated in the application.

Fee

Full week "upptäckare" and up: 1800 SEK

Half week "spårare": 1000 SEK

Leader's children 2 years and up (not participating in activities): 100 SEK per day

Late registration

For registrations after April 9:th, we cannot guarantee that there will be spots available.

Priority for scout groups in the three organizing districts and international groups does not apply after March 19:th.

Registration cancellation

If you are unable to attend, you can change participants at no extra cost. If you need to cancel, you can do so up to 14 days before the camp, then the camp fee will be refunded with a deduction of 300 SEK to cover costs already incurred, such as camp scarf, badge, etc.

In case of cancellation less than 14 days before the camp, a medical certificate is required. If this is presented, 50 SEK per day will be refunded, without a medical certificate no refund will be made.

Travel to and from Kalmar

We would like to encourage all scout groups to travel to Kalmar by train or bus as much as possible. In the registration form, you can indicate your preliminary mode of transport to Ljungnäs and request bus transport from Kalmar central station to Ljungnäs.

We will provide further details about travel, and camp entry/exit in future camp letters.

For those who choose to travel by plane to Kalmar, you will have to take bus 402 from Kalmar airport to Kalmar central station and then change to the bus to Ljungnäs.

Program

During the Vasa Camp, noblemen, major peasants, burghers and minor peasants will live and stay together on the shores of the Baltic Sea. The nobles (utmanare) do not want to mix with the commoners and will therefore be offered to live in their own part of the settlement. During the camp week you will experience the power struggle between the noble families and the crowned king Gustav Vasa. The king is doubtful about the loyalty of the nobles and therefore seeks support among the major peasants (äventyrare). After a while he is unsure whether he really has the major peasants on his side and therefore calls in the minor peasants (spårare) as well to increase his chances in the delicate power balance that prevails in the kingdom in 1523. The burghers (upptäckare) are busy with trade and crafts and have no time to get involved in the politics. They are mostly interested in preventing the king from destroying their trade relations. On the Friday, everyone will be able to take part in a medieval market where all the villages are involved in the activities.

We will involve leaders as staff members during the program sessions. Expect one leader per troop to be needed as staff during the program time.
