

This form is to be submitted each year (august to august) to the scouts scoutleader. The form is used to keep our member registry up to date. The only information kept in the registry is information about the scout's name, address, personal identity number (as well as a personal email and phonenumber if one exists). Name, address, phonenumber and email to the legal guardians is also registered.

Other information not entered into the member registry is kept by the respective scoutleader, in such a way that it can only be used by persons directly associated with the leadership for our activities. The forms are destroyed after each year (aug-aug) and are replaced by new ones before each new year.
